7739835416

To the extent applicable to the product, the following data are based on the requirements of Regulations (EU) 206/2012 and (EU) 626/2011.

model identifier of the indoor elements of the air conditioner model identifier of the indoor elements of the air conditioner	Symbol	Unit	7739835416
model identifier of the indoor elements of the air conditioner			7733701830
			7733701832
model identifier of the indoor elements of the air conditioner			8733500375 (2x)
model identifier of the indoor elements of the air conditioner			8733500376 (1x)
model identifier of the outdoor element of the air conditioner			7739835416
Indoor sound power level in cooling mode	L _{WA}	dB	60
Sound power level outdoors in cooling mode	L _{WA}	dB	69
Indoor sound power level in heating mode	L _{WA}	dB	60
Sound power level outdoors in heating mode	L _{WA}	dB	69
Refrigerant type			R410A
Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global w CO ₂ , over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disasse professional.	t fluid with a G\ arming would b	NP equal to 2 pe 2088 time	2088 kgCO _{2 eq} . This es higher than 1 kg of
